**Subject:** Re: Atlantic Coast Pipeline Project - Correction of Meeting with Nelson County

Thank you. We sent a correction today to FERC as soon as we discovered the error.

My apologies on the confusion. We report all meetings to FERC for the public record. I typically send a list of upcoming meetings along with the listing of those that have occurred in an effort to make sure all are on our report. That's where the error occurred.

I will, in the future, report only immediately after to avoid this confusion.

Susan

Susan,

I have pasted in below information received by County staff pertinent to a reported posting by Dominion to the Federal Energy Regulatory Commission of meetings with Nelson County's elected officials and staff on 1-14-15 with Dominion staff. As you know, the County, per Dominion's request to confer with County staff on future land use, growth projections, etc., had scheduled a meeting with Dominion staff on 1-14-15. However, as you also know, this meeting was not held (cancelled).

Assuming the information copied herein below was reported to FERC, then it is requested that Dominion submit a correction to FERC to document that meetings with the County's elected officials and/or County staff, which were not held are struck from the record and that the Commission's record also denotes that such corrections have been completed. Please advise if my input herein is not correct, inaccurate.

Thank you for your assistance and cooperation with the subject of this communication.
