NELSON COUNTY 3RD PARTY INSPECTION PROGRAM INSPECTION PROCEDURES

The following procedures must be followed unless a specific written exemption signed by the Building Official or his designee, is obtained prior to deviation from these procedures.

- 1. Nelson County's Inspection Form must be used** No other form or manner of reporting the inspection results will be accepted. This form contains information you will need to perform the inspection (example: setback distances, directions to the site and the inspection history of the particular job, all of which are important). No inspection may be performed without coming to the Building Inspection office and obtaining an original 2 part REQUIRED INSPECTION FORM prior to the inspection. Original top copy gets returned.
- 2. 3rd party Inspectors MUST notify staff of pending inspections 24 hours in advance of the inspection.** In an emergency, the Building Official or his designee may exercise his discretion to permit a shorter time. However, the inspector's convenience is NOT an emergency. In no instance should notice of a pending inspection be less than 2 hours prior to the time the inspector wishes to obtain the inspection form. Staff will need the time to prepare the form. The inspector may FAX or E-mail in their 3rd party inspection confirmation form to the Building Inspection office; however, the same time lines apply.
- 3. Inspectors must return inspection results within 72 hours of completion of the inspection.** No exceptions! Bring, FAX or E-mail the white copy of the inspection form to the Building Inspections office (the yellow copy goes to the builder or left on site). When an engineer's or architect's seal is required on the inspection form, the inspector may fax or E-mail a copy of the white form to the Building Inspection office and mail in the "sealed" original. The original must be mailed within 24 hours of completion of the inspection.
- 4. Re-Inspections.** If County staff failed the inspection, 3rd party inspectors may not do the re-inspection. If the 3rd party inspector failed the inspection, the 3rd party inspector may do the re-inspection. (Note: the inspection history on the inspection form will tell you who performed the previous inspections.)
- 5. Sanctions with regard to Inspection Privileges.** The Building Official may invoke sanctions from a warning to revocation of 3rd party inspector privileges for non-compliance of the Policy & Procedures, for lapse of required certification, or for falsification of any portion of the application or of the inspection reports. The Building Official shall provide the reason for such sanction to the inspector in writing. Appeals of the Building Officials decision may be taken to the Local Board of Building Code Appeals.
- 6. Cancelled Inspections.** Upon receiving notification of a cancellation of an inspection, the 3rd party inspector must immediately notify the building inspection office. If the inspection is rescheduled, the 3rd party inspector (the same or another inspector) must follow the same inspection procedures for the rescheduled inspection.
- 7. Approved Plans.** Approved Plans shall be the county stamped drawing(s) for the complete structure for which the building permit has been issued. "Stamped" means the drawings(s) shall contain a date, signature, (County Building Official or his designee, and the approved Nelson County Building Department stamp. No plans shall be valid without such a stamp and the Inspection MUST FAIL with the Comment "No Approved Plans on Site". Supplemental engineering plans for such things as "grade beams", brick ledges, etc. do not constitute Approved Plans". Any question as to the existence of the proper "Approved Plans" must be directed to the Building Official prior to rendering a pass/fail inspection decision.
