Independent Auditors' Report

To the Honorable Members of the Board of Supervisors
County of Nelson, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of County of Nelson, Virginia, as of and for the year ended Financial June 30, 2016, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Nelson, Virginia, as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 22 to the financial statements, in 2016, the County adopted new accounting guidance, GASB Statement Nos. 72 Fair Value Measurement and Application, 79 Certain External Investment Pools and Pool Participants, and 82 Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules related to pension and OPEB funding on pages 4-13, 88, and 89-94 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Nelson, Virginia's basic financial statements. The introductory section, other supplementary information and statistical information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Matters

Other Information: (Continued)

The introductory section and statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2016, on our consideration of the County of Nelson, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Nelson, Virginia's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following is a narrative overview and analysis of the financial activities of the County of Nelson, Virginia for the fiscal year ended June 30, 2016.

Financial Highlights

Government-wide Financial Statements

The assets and deferred outflows of resources of the County of Nelson, Virginia exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$35,888,548. Of this amount, \$23,096,652 is unrestricted, and may be used to meet the government's ongoing obligations to creditors and citizens. Of the total net position, there is \$12,737,759 invested in capital assets net of related debt (an increase of \$1,373,246 from the previous year). The School Board's net position is a deficit of \$4,282,233, of which the unrestricted net position was a deficit of \$19,080,768 (an increase of \$763,280 from the previous year).

The total net position of the Primary Government increased by \$2,605,764. The School Board's net position increased by \$1,021,250. (See Exhibit 2.)

Fund Financial Statements

At the end of the current fiscal year, the unassigned fund balance for the general fund was \$22,801,750. (See Exhibit 3.) This amount includes taxes and accounts receivable reflected in the fiscal year 2015-16 budget. At the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$26,761,147 of which \$22,801,750 is available for spending at the government's discretion (unassigned fund balance). (See Exhibit 3.)

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Nelson County's basic financial statements. These statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains the required supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

Government-wide financial statements provide financial statement users with a general overview of County finances. The statements include all assets, deferred outflows, liabilities, deferred inflows, and net position using the accrual basis of accounting. All current year revenue and expenses are taken into account regardless of when cash is received or paid. Both the financial overview and accrual accounting factors are used in the reporting of a private-sector business. Two financial statements are used to present this information: 1) the statement of net position and 2) the statement of activities.

Overview of the Financial Statements: (Continued)

Government-wide Financial Statements: (Continued)

The statement of net position presents all of the County's permanent accounts or assets, liabilities, deferred outflows, deferred inflows and the resulting net position. The difference between assets (including deferred outflows of resources) and liabilities (including deferred inflows of resources) is reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. Other non-financial factors will also need to be considered to determine the overall financial position of the County.

The statement of activities presents information showing how the government's net position changed during the fiscal year. The statement is focused on the gross and net cost of various government functions that are supported by general tax and other revenue. The statement of activities presents expenses before revenues, emphasizing that in governments, revenues are generated for the express purpose of providing services rather than as an end in themselves.

Both government-wide financial statements separate government activities and business-type activities of the County. The primary source of funding for government activities is taxes and intergovernmental revenues. Government activities include general government administration, judicial administration, public safety, public works, health and welfare, education, parks, recreation and cultural, and community development. Business-type activities recover all or a significant portion of their costs through user fees and charges. The County currently classifies the Piney River public water and sewer system and the Nelson County Broadband Authority as business-type activities.

The government-wide financial statements include, in addition to the primary government or County, two component units: 1) the Nelson County School Board and 2) the Nelson County Economic Development Authority. Although the component units are legally separate entities, the County is accountable or financially accountable for them. A primary government is accountable for an organization if the primary government appoints a majority of the organization's governing body. A primary government is financially accountable if, in addition, either the government is able to impose its will on the organization or the organization is capable of imposing specific financial burdens on the primary government. For example, the primary government may approve debt issuances, rate structures and/or provide significant operational funding of the component unit.

Fund Financial Statements

A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. The County's funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions, or services, reported as governmental activities in the government-wide financial statements. Whereas, the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements a reconciliation between the two methods is provided after the governmental fund balance sheet on Exhibit 4 and after the governmental fund statement of revenues, expenditures and changes in fund balances on Exhibit 6.

Overview of the Financial Statements: (Continued)

Governmental funds: (Continued)

The County maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund, and the Capital Projects Fund, all of which are considered to be major funds. Data for other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary funds

There are two types of proprietary funds: enterprise funds which are established to account for the delivery of goods and services to the general public and internal service funds which account for the delivery of goods and services to other departments or agencies of the government. Proprietary funds use accrual basis accounting, similar to private sector business.

The financial statements for the Piney River public water and sewer system and the Nelson County Broadband Authority are reported as enterprise funds in the County's fund financial statements. The Piney River public water and sewer system's operation provides for the delivery of public water and sewer service to County residents in designated areas of Nelson County. The Nelson County Broadband Authority operates a middle mile broadband network. The County does not have any internal service funds.

Fiduciary funds

Fiduciary funds account for assets held by the government as a trustee or agent for another organization or individual. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net position (Exhibit 10). Fiduciary funds are not reflected in the government-wide financial statements because the funds are not available to support the County's own activities. These funds consist of the Special Welfare and EMS Loan Funds.

Notes to the financial statements

The notes provide additional information that is needed to fully understand the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's progress in funding its obligation to provide pension benefits to its employees.

The combining statements mentioned earlier in connection with non-major governmental funds are presented as other supplementary information.

Government-wide Financial Analysis

As previously noted, net position may serve as a useful indicator of a government's financial position. For the County of Nelson, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$35,888,548 at the end of the fiscal year.

The County's net position is divided into three categories: 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

County of Nelson's Net Position As of June 30, 2016

	Governmental Activities		Business-type Activities		Total	
	2016	2015	2016	2015	2016	2015

Deferred Outflows of Resources	\$ 773,620	\$ 790,542	\$ -	\$ -	\$ 773,620	\$ 790,542
Long-term liabilities	\$ 31,424,058	\$ 29,502,784	\$ 1,072,046	\$ 1,087,636	\$ 32,496,104	\$ 30,590,420
Other liabilities	1,260,455	1,003,753	68,745	23,756	1,329,200	1,027,509
Total liabilities	<u>\$ 32,684,513</u>	<u>\$ 30,506,537</u>	<u>\$ 1,140,791</u>	<u>\$ 1,111,392</u>	<u>\$ 33,825,304</u>	<u>\$ 31,617,929</u>
Deferred Inflows of Resources	\$ 10,975,620	\$ 11,495,177	\$ -	\$ -	\$ 10,975,620	\$ 11,495,177
Net Position:						
Invested in capital assets, net of related debt	\$ 5,597,931	\$ 4,322,819	\$ 6,857,134	\$ 6,759,000	\$ 12,455,065	\$ 11,081,819
Restricted for:						
Debt service and bond covenants	-	-	54,137	41,522	54,137	41,522
Unrestricted	22,726,463	21,468,973	652,883	690,470	23,379,346	22,159,443
Total net position	<u>\$ 28,324,394</u>	<u>\$ 25,791,792</u>	<u>\$ 7,564,154</u>	<u>\$ 7,490,992</u>	<u>\$ 35,888,548</u>	<u>\$ 33,282,784</u>

For the County, investment in capital assets (i.e., land, buildings, machinery and equipment), net of related debt used to acquire those assets that is still outstanding, represents 34.7 percent of total net position. The County uses these capital assets to provide services to citizens therefore; these assets are not available for future spending. Although, the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay debt must be provided from assets restricted for that purpose or other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The County has restricted net position for debt service and bond covenants (\$54,137) at June 30, 2016. The remaining balance of unrestricted net position, which is \$23,379,346 or 65.7 percent of total net position, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the fiscal year, the County's Primary Government is able to report a positive balance in total net position. The governmental activities reported positive balances of \$5,880,625 in net position invested in capital assets, net of related debt and \$22,443,769 in unrestricted net position. The business-type activities reported positive balances of \$6,857,134 in net position invested in capital assets, net of related debt and \$652,883 in unrestricted net position.

The government's total net position increased by \$2,298,278 during the current fiscal year compared to an increase of \$3,182,564 in FY 2014-2015.

Governmental and Business-type Activities

Governmental activities increased the County's net position by \$2,532,602. Business-type activities increased the County's net position by \$73,162. Key elements of these changes are as follows:

County of Nelson's Changes in Net Position For the Year Ended June 30, 2016

	Governmental Activities		Business-type Activities		Total	
	2016	2015	2016	2015	2016	2015
Revenues:

Total expenses	\$ 30,805,277	\$ 30,182,635	\$ 854,695	\$ 683,230	\$ 31,659,972	\$ 30,865,865
Increase (decrease) in net assets	\$ 2,532,602	\$ 3,225,703	\$ 73,162	\$ (43,139)	\$ 2,605,764	\$ 3,182,564
Beginning net position	25,791,792	22,566,089	7,490,992	7,534,131	33,282,784	30,100,220
Ending net position	\$ 28,324,394	\$ 25,791,792	\$ 7,564,154	\$ 7,490,992	\$ 35,888,548	\$ 33,282,784

- Overall revenues increased by \$217,307. Revenues from Governmental Activities decreased by \$70,459. However, Business-type activities had increased revenues of \$287,767. The decrease in revenues from Governmental Activities is primarily due to fluctuations in certain grants and contributions and an increase in the transfer of revenue to Business-type activities. The increase in revenue from Business-type activities is also attributed to the transfer in of governmental activity revenue. The increase in transfers is primarily attributable to Community Development Block grant funds received by the county and transferred to the Nelson County Broadband Authority for purposes of network expansion.

Governmental and Business-type Activities: (Continued)

- Overall grants and contributions for governmental activities reflect a net decrease of \$353,664. The most significant factor in this decrease is the County received \$674,866 less in federal Transportation Enhancement Act grant funds for the Crozet Tunnel capital project in FY16 than it did in FY15. This decrease was offset by an overall increase of \$173,512 in categorical aid from the Commonwealth and an increase of \$65,345 in categorical aid from the federal government for Public Assistance and Welfare Administration.
- The revenues from general property taxes increased by \$709,033 inclusive of uncollected property taxes.
- The revenues from other local taxes decreased by \$89,565. This is due to decreases in motor vehicle license fees of \$36,542. Additionally, revenue from meals tax decreased by \$10,820 and transient occupancy tax decreased by \$39,053.
- The revenues from charges for services decreased by \$215,700. Of this amount, \$190,231 is attributable to governmental activities and \$25,469 is attributable to business-type activities. Within governmental activities, the most significant factors are the decrease of \$98,211 in court fines and forfeitures and the decrease of \$69,078 in permits, privilege fees, and regulatory licenses (in particular, land use application fees decreased by \$73,065) and a decrease of \$22,942 in other charges for services, in particular charges for sanitation and waste removal. Within business-type activities, the most significant factor is a decrease of \$28,134 in water and sewer revenues from the Piney River system.
- Expenses reflected an overall net increase of \$1,101,593. Of this amount, expense from governmental activities increased by \$622,642 and business-type activities increased by \$478,951.
- All areas of expenses for governmental activities reflected increases with the exception of public safety, public works, and community development with respective decreases of \$28,192, \$68,402 and \$11,140. The most significant categories of increase include Health and Welfare with an increase of \$317,870, education with an increase of \$225,659 and an increase of interest on long term debt expense in the amount of \$98,088.
- The health and welfare function reported an increase in expenditures of \$317,870 which is mainly attributable to public assistance and at risk youth programs with respective increases of \$133,539 and \$127,464
- The education function reported an increase of expenditures of \$225,659 which is attributable to instruction costs.
- The business activities reported an increase in operational expenses of \$171,465. Of this amount an increase of \$24,069 is attributable to the Piney River water and sewer operations and an increase of \$147,396 is attributable to broadband network operations.

Financial Analysis of the Government's Funds

The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of financial resources. Such information is useful in assessing the County's financing requirements. Unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the fiscal year, the County's governmental funds reported combined ending fund balances of \$26,761,147, an increase of \$2,772,463 from the prior year. Approximately, 85.2 percent of this total amount constitutes the unassigned fund balance, which is available for spending at the government's discretion. The remainder of the fund balance is classified to indicate that it is not available for new spending because it is constrained as follows:

- Nonspendable fund balance of \$30,678
- Restricted fund balance of \$2,045,572
- Committed fund balance of \$1,883,147

Details of these classifications can be found in Note 1 (O) of these financial statements.

The general fund is the chief operating fund of the County. As of June 30, 2016, total fund balance of the general fund was \$23,116,374, of which \$22,801,750 was unassigned. As a measure of the general fund's liquidity, it may be useful to compare both the unassigned fund balance and total fund balance to total general fund expenditures. The unassigned fund balance represents 80.2 percent of total general fund expenditures which includes transfers to the School Board component unit of \$14,570,447. Total fund balance represents 81.3 percent of total general fund expenditures.

The fund balance of the County's general fund increased by \$477,767 during the current fiscal year. Key factors in this increase are as follows:

- Overall General Fund revenues decreased by \$554,086. Local revenues decreased by \$20,407 attributable to decreases in fees from permits and licenses (\$69,078), fines and forfeitures (\$98,211), and other local taxes (\$89,565). These decreases were offset by increases in general property taxes in the amount of \$142,441 and increases in revenue from the use of property in the amount of \$98,996 primarily attributable to unclaimed surplus from the sale of delinquent real estate. Federal revenues also decreased by \$681,588. The most significant factor in this decrease is the County received \$554,086 less in federal Transportation Enhancement Act grant funds for the Crozet Tunnel project in FY16 than it did in FY15 due to the completion of Phase 1 of the project. These decreases are offset by increased state revenues in the amount of \$147,909.
- However, General Fund expenditures also decreased by \$591,685. The decreased expenditures are attributable primarily to the decrease in capital project expenditures of \$1,448,315. This significant decrease was offset by increases in every other category of governmental activity. The most significant increases are in public safety, health and welfare, and education with respective increases of \$240,819, \$277,890, and \$272,408.

Financial Analysis of the Government's Funds: (Continued)

Governmental funds: (Continued)

- Transfers out for debt service and capital projects increased by \$1,690,603 in FY2015-2016. Transfers for the courthouse renovation project in the amount of \$1,426,225, grant match funding for the Broadband Network expansion in the amount of \$100,000, and an additional transfer of \$100,721 to the Debt Service fund relative to the Courthouse renovation project were all contributing factors to this increase in other financing sources.

Proprietary funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements but in more detail.

Unrestricted net position of the Piney River Water and Sewer Fund at the end of the fiscal year was \$123,141. This is a decrease from the prior year of \$10,457.

Unrestricted net position of the Broadband Authority at the end of the fiscal year was \$529,742 as compared to \$556,872 in the prior year, for a decrease of \$27,130. This is primarily attributable to the impact of increased expenditures relative to the network expansion project.

General Fund Budgetary Highlights

The final amended budgeted appropriations for the General Fund were \$721,748 more than the original budgeted expenditure appropriations, which is 2.3 percent of the total original budget, and can be briefly summarized as follows:

- A supplemental appropriation was approved for a transfer to the School Fund in the amount of \$338,889. The appropriation was supported with unexpended balances returned to the General Fund at the end of the prior fiscal year (FY2014-2015).
- A supplemental appropriation for the County's radio project were approved in the amount of \$290,647. The appropriation was supported with unexpended fund balance that had been allocated to the project in the prior fiscal year.
- Supplemental appropriations were approved for several grants as follows: 1) Highway Safety grant-\$14,394 2) Library of Virginia grant-\$13,032 and 3) "Drive Tourism" grant -\$10,000.
- The Board approved various other supplemental appropriations. Refer to Schedule 2 for details of the increases and decreases by department.
- Contingency reserves also provided for various transfers within the General Fund appropriated budget.

Capital Asset and Debt Administration

Capital Assets

The County's investment in capital assets for its governmental activities as of June 30, 2016 is \$31,271,981 (net of accumulated depreciation and is an increase of \$864,400 from the previous fiscal year). This investment in capital assets includes land, infrastructure, buildings and improvements, machinery and equipment, and construction in progress.

Total	<u>\$ 26,437,777</u>	<u>\$ 25,125,640</u>	<u>\$ 1,072,046</u>	<u>\$ 1,087,636</u>	<u>\$ 27,509,823</u>	<u>\$ 26,213,276</u>

All debt reported by the Discretely Presented Component Unit - School Board, has been assumed by the Primary Government as required by Section 15.2-1800.1, Code of Virginia, 1950, as amended.

Additional information on the County's long-term debt, including other long-term obligations such as compensated absences, other post-employment benefits and net pension liability, can be found in Notes 7-11, in the notes of the financial statements.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the County was 3.6 percent (June 2016), which is a decrease from the rate of 4.5 percent a year ago (June 2015). This compares favorably to the state's average unemployment rate of 4.0 percent (June 2016) and the national average rate of 4.9 percent (June 2016). These rates were obtained from the Virginia Employment Commission's Labor Market Data.
- Due to current housing market conditions, the County incurred an increase in building permit fees of 7.4% for fiscal year 2015-2016, somewhat less than the 34% increase seen in fiscal year 2014-2015, but reflective of steady growth as opposed to steady declines in building permit fees seen in years prior to fiscal year 2014-2015. The County does anticipate slow recovery of the housing market but does not expect to generate building permit fees at the level realized in fiscal year 2007-2008. Recordation taxes, also impacted by housing market conditions, had remained fairly level with the exception of an unusually large transaction in Fiscal Year 2013-2014. However, in fiscal year 2015-2016, the County incurred a modest decrease of 6.4% in recordation taxes.
- The County was not impacted by reductions in state aid to localities in fiscal year 2015-2016 as in previous years. The reduction in Fiscal Year 2014-2015 was \$29,697. Categorical aid from the Commonwealth increased by 3.1% in fiscal year 2015-2016. The impact of state funding reductions going forward will be monitored in the upcoming budgetary process.
- The property reassessment effective for 2014 reflected an 18.6% decline in property values with both real estate and personal property tax rates being adjusted to compensate for the decline in value. The reassessment for 2018 is expected to begin in late 2016. Tax years 2015 and 2016 reflected minimal growth in real property values and it is expected that 2017 and 2018 real property values will likely follow a similar trend.

All of these factors were considered in preparing the County's budget for the 2016-2017 fiscal year.

Requests for Information

This financial report is designed to provide readers with a general overview of the County of Nelson's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the County Administrator, County of Nelson, Post Office Box 336, Lovingston, Virginia 22949.

Reconciliation of the Balance Sheet of Governmental Funds
 To the Statement of Net Position
 At June 30, 2016

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds \$ 26,761,147

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Land and improvements	\$ 693,157	
Construction in progress	5,067,077	
Buildings and improvements, net of depreciation	10,409,284	
Equipment, net of depreciation	3,794,589	
School Board capital assets, net of depreciation	11,307,874	31,271,981

Other long-term assets are not available to pay for current-period expenditures and, therefore, are unavailable in the funds.

Unavailable revenue - property taxes	\$ 1,741,275	
Items related to measurement of net pension liability	(417,447)	1,323,828

Long-term liabilities and related interest are not due and payable in the current period and, therefore, are not reported in the funds.

Accrued interest on debt	\$ (382,124)	
Bonds, notes and capital leases payable	(26,310,000)	
Bond premiums	(1,401,356)	
Deferred charge on refunding	282,694	
Early retirement incentive obligation	(127,777)	
Net pension liability	(2,175,667)	
Net OPEB obligation	(23,440)	
Compensated absences	(339,837)	
Accrued landfill remediation costs	(1,045,981)	(31,523,488)

Pension contributions subsequent to the measurement date and differences between actual and expected experience will be a reduction to the net pension liability in the next fiscal year and, therefore, are not reported in the funds.

490,926

Net position of governmental activities \$ 28,324,394

The notes to the financial statements are an integral part of this statement.

Reconciliation of Statement of Revenues, Expenditures, and
 Changes in Fund Balances of Governmental Funds to the Statement of Activities
 For the Year Ended June 30, 2016

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds - Exhibit 5 \$ 2,772,463

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital asset additions	\$ 3,714,180	
Depreciation expense	(1,809,318)	1,904,862

Governmental funds do not report capital assets or the related accumulated depreciation; therefore, no loss is recognized when a net capital asset is retired. A loss on retirement is recorded in the statement of activities.

(7,712)

Transfer of joint tenancy assets from Primary Government to the Component Unit School Board

(1,032,750)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Unearned revenue - property taxes	\$ 295,187	
-----------------------------------	------------	--

(Increase) decrease in deferred inflows related to the measurement of the net pension liability	541,428	836,615
---	---------	---------

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Debt issued:

Issuance of Lease revenue bond	\$ (3,590,000)	
Bond premium	(472,478)	
Increase in landfill liability	(9,330)	

Repayments:

Lease revenue refunding bonds	490,000	
Less: Amortization of deferred charge on refunding	(43,765)	
General obligation school bonds	740,000	
Plus: Amortization of issuance premium	39,005	
Lease revenue bonds	445,000	
Plus: Amortization of issuance premium	62,371	
Infrastructure revenue bonds	545,000	
Plus: Amortization of issuance premium	114,508	
Early retirement incentive obligation	57,863	

Net adjustment		(1,621,826)
----------------	--	-------------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Compensated absences	\$ (23,741)	
Net OPEB obligation	1,450	
Decrease (increase) in net pension liability	(320,922)	

(Decrease) increase in deferred outflows related to pension payments subsequent to the measurement date	12,177	
---	--------	--

(Decrease) increase in deferred outflows related to differences between actual and expected experience	14,666	
--	--------	--

Accrued interest payable	(2,680)	(319,050)
--------------------------	---------	-----------

Change in net position of governmental activities	\$	2,532,602
---	----	-----------

The notes to the financial statements are an integral part of this statement.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Narrative Profile

The County of Nelson (the County), located in central Virginia and bordered by the counties of Augusta, Rockbridge, Amherst, Appomattox, Buckingham, and Albemarle, was founded in 1807. The County has a population of 15,161 and land area of 471 square miles.

The County is governed under the County Administrator - Board of Supervisors form of government. Nelson County engages in a comprehensive range of municipal services, including general government administration; public safety and administration of justice; education; health, welfare, and human service programs; planning and community development; and recreation and cultural activities.

The financial statements of the County have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

A. Management's Discussion and Analysis

GASB Statement No. 34 requires that financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A). This analysis is similar to the analysis the private sector provides in their annual reports.

B. Financial Reporting Entity

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable.

Blended Component Units - Nelson County Broadband Authority - The Nelson County Broadband Authority serves all the citizens of the government and is governed by a board comprised of the government's elected supervisors. The rates for user charges and bond issuance authorizations are approved by the government's board. The Authority operates on a fiscal year which ends June 30. The Authority is presented as an enterprise fund in the County's financial statements for the fiscal year ended June 30, 2016.

Discretely Presented Component Units - The component unit columns in the financial statements include the financial data of the County's discretely presented component units. They are reported in a separate column to emphasize that they are legally separate from the County.

The Nelson County School Board is responsible for elementary and secondary education within the County. The members of the governing board are elected by the County voters. The School Board is fiscally dependent upon the County because the County's Board of Supervisors approves the School Board budget, provides substantial funding for operations and must approve any debt issuance. The Nelson County School Board does not prepare separate financial statements.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

B. Financial Reporting Entity: (Continued)

The Economic Development Authority of Nelson County, Virginia was created to issue industrial development revenue bonds for businesses located within the County. The Authority board members are appointed by the County Board of Supervisors. All debt issuance must be approved by the County Board of Supervisors and the County has incurred a moral obligation to provide funding for the payment of the Authority debt. The Authority is presented as a proprietary fund type. A copy of the Authority's financial statements may be obtained from the Nelson County Administrator's office.

Related Organizations - The County's officials are also responsible for appointing the members of boards of other organizations, but the County's accountability for these organizations does not extend beyond making the Board appointment. The Nelson County Service Authority board members are appointed by the County Board of Supervisors. The County's accountability for the Authority does not extend beyond making the appointments. The County appropriated \$156,000 to the Authority for operating grants for fire protection services in fiscal year 2016 and provides space for its administrative offices. The County also paid \$162,812 to the Authority for its share of the debt service of the Colleen water line. The Authority is not included in the reporting entity. A copy of the Authority's financial statements can be obtained from the Authority administrative office located in Lovingston, Virginia.

Jointly Governed Organizations - The County appoints representative members of the governing bodies of the Jefferson-Madison Regional Library, the Region Ten Community Services Board, and the Thomas Jefferson Planning District Commission. The County does not retain ongoing financial interests in these organizations. During the year, the County contributed \$265,184 for operations to the Jefferson-Madison Regional Library, \$98,586 to the Region Ten Community Services Board, \$17,492 to the Thomas Jefferson Planning District Commission, \$533,152 to the Albemarle-Charlottesville Regional Jail Authority, and \$96,500 to the Jefferson Area Board for Aging.

In June 2008, the County entered into a Use Agreement with the Region 2000 Services Authority to make use of its facilities. The Region 2000 Services Authority was formed by five participating jurisdictions to operate solid waste disposal landfills. The operating and debt service costs of the Region 2000 Services Authority are funded through the charging of tipping fees. In 2016, the County paid the Region 2000 Services Authority \$283,062 in tipping fees. See Note 19 for further discussion of the Use Agreement.

C. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the *primary government* is financially accountable.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Government-wide and fund financial statements: (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Statement of Net Position - The Statement of Net Position is designed to display the financial position of the primary government (governmental and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Statement of Activities - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

D. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

D. Measurement focus, basis of accounting, and financial statement presentation: (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

The County's fiduciary funds are presented in the fund financial statements by type (private purpose and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the County, these funds are not incorporated into the government-wide financial statements.

The following is a brief description of the specific funds used by the County in fiscal year 2016.

1. Governmental Funds:

- a. General Fund: The General Fund is the government's primary operating fund. It accounts for and reports all financial resources of the general government, except those required to be accounted for and reported in another fund. The General Fund is considered a major fund for financial reporting purposes.

The following is a brief description of the specific funds used by the County in fiscal year 2016.

- b. Debt Service Fund: The Debt Service Fund accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should also be used to report financial resources being accumulated for future debt service. The Debt Service Fund is considered a major fund for financial reporting purposes.
- c. Special Revenue Funds: Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Special Revenue Funds consist of the Housing Improvement Fund.
- d. Capital Projects Fund: The Capital Projects Fund accounts for and reports all financial resources that are restricted, committed, or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments. The Capital Projects Fund is considered a major fund for financial reporting purposes.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

D. Measurement focus, basis of accounting, and financial statement presentation: (Continued)

2. Proprietary Funds

Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. Proprietary Funds utilize the accrual basis of accounting where the measurement focus is upon the determination of net income, financial position, and changes in financial position.

Proprietary funds operating revenue consist of charges for services and related revenues. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. Nonoperating revenues consist of contributions, grants, investment earnings, and other revenues not directly derived from the providing of services.

Proprietary Funds consist of the Piney River Water & Sewer Fund and the Nelson County Broadband Authority. The Piney River Water & Sewer Fund and the Nelson County Broadband Authority are Enterprise Funds. An Enterprise Fund is a proprietary fund that accounts for the financing of services to the general public where all or most of the operating expenses involved are recorded in the form of charges to users of such services.

3. Fiduciary Funds (Trust and Agency Funds):

Fiduciary Funds (Trust and Agency Funds) account for assets held by a governmental unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds.

Agency Funds are custodial in nature and do not present results of operations or have a measurement focus. Agency Funds are accounted for using the accrual basis of accounting. These funds are used to account for assets that the government holds for others in an agency capacity. The Agency Funds consist of the Special Welfare and EMS Loan Funds.

The County has no Trust Funds.

4. Component Units:

a. Nelson County School Board: The Nelson County School Board has the following fund:

– Governmental Fund:

- ~ School Operating Fund - This fund is the primary operating fund of the School Board and accounts for all revenues and expenditures applicable to the general operations of the public school system. Revenues are derived primarily from charges for services, appropriations from the County of Nelson and state and federal grants. The School Operating Fund is considered a major fund of the School Board for financial reporting purposes. This fund also accounts for the operations of the School Board's food service and textbook purchase programs.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

D. Measurement focus, basis of accounting, and financial statement presentation: (Continued)

4. Component Units: (Continued)

- b. Economic Development Authority: The Economic Development Authority operates on a proprietary fund basis where revenues and expenditures are recognized on the accrual basis of accounting, where the measurement focus is on the determination of net income, financial position, and changes in financial position. The Economic Development Authority is an enterprise fund. Enterprise funds account for the financing of services to the general public where all or most of the operating expenses involved are recorded in the form of charges to users of such services.

E. Cash and Cash Equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

F. Investments

Money market investments, participating interest-earning investment contracts (repurchase agreements) that have a remaining maturity at time of purchase of one year or less, nonparticipating interest-earning investment contracts (nonnegotiable certificates of deposit (CDs) and external investment pools are measured at amortized cost. All other investments are reported at fair value.

G. Restricted Cash:

Restricted cash has been recorded for funds held for restricted purposes.

The Piney River Water and Sewer Fund has recorded \$54,137 in restricted cash. This amount represents the reserve required to be established by the loan agreement. See Note 7 for further discussion.

H. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. The County bills and collects its own property taxes. Personal property taxes are prorated based on the date property is located within the County. However, the value as of January 1 is used to compute the tax.

Real estate and personal property taxes are payable in semi-annual installments due June 5 and December 5.

I. Budgets and Budgetary Accounting

The Board of Supervisors annually adopts budgets for the various funds of the primary government and component unit School Board. All appropriations are legally controlled at the department level for the primary government funds. The School Board appropriation is determined by the Board of Supervisors and controlled in total by the primary government.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

I. Budgets and Budgetary Accounting: (Continued)

The budgets are integrated into the accounting system, and the budgetary data, as presented in the financial statements for all major funds with annual budgets, compare the expenditures with the amended budgets. All budgets are presented on the modified accrual basis of accounting. Accordingly, the Budgetary Comparison Schedule for the major funds presents actual expenditures in accordance with the accounting principles generally accepted in the United States on a basis consistent with the legally adopted budgets as amended. Unexpended appropriations on annual budgets lapse at the end of each fiscal year.

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
4. Formal budgetary integration is employed as a management control device during the year for the General Fund, the Housing Improvement Fund, the Piney River Water & Sewer Fund, the Street Lights Fund, the Capital Projects Fund, the Debt Service Fund, and the School Operating Fund.
5. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
6. Appropriations lapse on June 30, for all County units.
7. All budgetary data presented in the accompanying financial statements is the original budget as of June 30, 2016, as adopted, appropriated and legally amended.

The expenditure budget is enacted through an annual appropriations ordinance. Appropriations are made at the departmental level for the primary government and at the function level for the School Board. If budget amendments exceed 1% of the original adopted budget the Board of Supervisors may legally amend the budget only by following procedures used in the adoption of the original budget. Public hearings are required to amend the budget if amendments exceed 1% of the original adopted budget. There was no budget amendment during the year that exceeded the 1% limitation. The Board of Supervisors must approve all appropriations and transfers of appropriated amounts.

J. Allowance for Uncollectible Accounts

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$112,129 at June 30, 2016. The allowance is comprised of property taxes, landfill fees, EMS charges, and sewer charges.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

K. Capital Assets

Capital assets, which include property, plant, and equipment and infrastructure, are reported in the applicable governmental columns in the government-wide financial statements. The County, Component Unit School Board, and Component Unit Economic Development Authority do not have any infrastructure in their capital assets since roads, streets, bridges, and similar assets within its boundaries are property of the Commonwealth of Virginia. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical costs or estimated historical cost if purchased or constructed. Donated capital assets are valued at acquisition value at the date of donation.

Maintenance, repairs, and minor equipment and infrastructure are charged to operations when incurred. Expenses that materially change the capacities or extend the useful lives are capitalized. Upon sale or retirement of land, buildings, and equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

Property, plant, and equipment and infrastructure of the primary government, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

Buildings and improvements	10 to 40 years
Furniture and other equipment	5 to 12 years

L. Compensated Absences

The County and Component Unit School Board incur liabilities related to compensated absences (annual and sick leave benefits) when vested. Because the timing of the settlement of the liability related to compensated absences is not considered to be estimable, the entire amount of the liability has been classified as current in the government-wide financial statements.

M. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

N. Long-Term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental or component unit activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported inclusive or net of the applicable bond premium or discount.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

N. Long-Term Obligations: (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

O. Fund Equity

Financial Policies

The Board of Supervisors meets on a monthly basis to manage and review cash financial activities and to ensure compliance with established policies. It is the County's policy to fund current expenditures with current revenues and the County's mission is to strive to maintain a diversified and stable revenue stream to protect the government from problematic fluctuations in any single revenue source and provide stability to ongoing services. The County's unassigned General Fund balance will be maintained to provide the County with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing.

When fund balance resources are available for a specific purpose in more than one classification, it the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Under GASB 54, fund balances are required to be reported according to the following classifications:

Nonspendable fund balance - Includes amounts that cannot be spent because they are either not in spendable form, or, for legal or contractual reasons, must be kept intact. This classification includes inventories, prepaid amounts, assets held for resale, and long-term receivables.

Restricted fund balance - Constraints placed on the use of these resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or other governments; or are imposed by law (through constitutional provisions or enabling legislation).

Committed fund balance - Amounts that can only be used for specific purposes because of a formal action (resolution or ordinance) by the government's highest level of decision-making authority.

Assigned fund balance - Amounts that are constrained by the County's intent to be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body, another body (such as a Finance Committee), or by an official to whom that authority has been given. With the exception of the General Fund, this is the residual fund balance classification for all governmental funds with positive balances.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

O. Fund Equity: (Continued)

Unassigned fund balance - This is the residual classification of the General Fund. Only the General Fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification, as the result of overspending for specific purposes for which amounts had been restricted, committed or assigned.

The Board of Supervisors is authorized to assign amounts for specific purposes. The Board of Supervisors is also authorized to commit amounts for specific purposes. The following is detail of the County's Fund Balances:

Category	General Fund	Debt Service Fund	Capital Projects Fund	Other Governmental Funds	Total Primary Government	Component Unit School Board
Nonspendable:						
Prepaid items	\$ 30,678	\$ -	\$ -	\$ -	\$ 30,678	\$ 24,543

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

P. Net Position

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

Q. Inventory

Inventory is stated at the lesser of cost or fair market value. Cost is calculated on a first in, first out basis.

R. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

S. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has two items that qualifies for reporting in this category. One item is the deferred amount on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other item is comprised of certain items related to the measurement of the net pension liability. These include differences between expected and actual experience, change in assumptions, the net difference between projected and actual earnings on pension plan investments and contributions to the pension plan made during the current year and subsequent to the net pension liability measurement date, which will be recognized as a reduction of the net pension liability next fiscal year. For more detailed information on these items, reference the pension note.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

S. Deferred Outflows/Inflows of Resources: (Continued)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The statement of financial position also reports deferred inflows of resources. The County has two types of items that qualifies for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of 2nd half installments levied during the fiscal year but due after June 30th, and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. This also includes uncollected property taxes due prior to June 30. Under the accrual basis, 2nd half installments and amounts prepaid on the 2nd half installments are reported as deferred inflows of resources. In addition, certain items related to the measurement of the net pension liability are reported as deferred inflows of resources. These include differences between expected and actual experience, change in assumptions, and the net difference between projected and actual earnings on pension plan investments. For more detailed information on these items, reference the pension note.

T. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's Retirement Plan and the additions to/deductions from the County's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2—DEPOSITS AND INVESTMENTS:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 2—DEPOSITS AND INVESTMENTS: (CONTINUED)

Investments

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

The County does not have a written investment policy but follows state guidelines.

Custodial Credit Risk (Investments)

The County's investments at June 30, 2016 were held in the County's name by the County's custodial banks.

Credit Risk of Debt Securities

The County's rated debt investments as of June 30, 2016 were rated by Standard & Poor's and/or an equivalent national rating organization and the ratings are presented below using the Standard & Poor's rating scale.

<u>County's Rated Debt Investments' Values</u>

Local Government Investment Pool	57,486	57,486	-
Total	\$ 4,277,716	\$ 3,286,891	\$ 990,825

External Investment Pools

The State Non-Arbitrage Pool (SNAP) is an open-end management investment company registered with the Securities and Exchange Commission. In May 2016, the Board voted to convert the SNAP fund to an LGIP structure, which would be managed in conformance with GASB 79. On October 3, 2016, the Prime Series became a government money market fund and the name was changed to Government Select Series. The Government Select Series has a policy of investing at least 99.5% of its assets in cash, U.S. government securities (including securities issued or guaranteed by the U.S. government or its agencies or instrumentalities) and/or repurchase agreements that are collateralized fully.

The fair values of the positions in the Local Government Investment Pool (LGIP) are the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP and SNAP are amortized cost basis portfolios under the provisions of GASB 79. There are no withdrawal limitations or restrictions imposed on participants.

Net receivables	\$ 12,968,190	\$ 220,423	\$ 49,559	\$ 204,160

A note receivable in the amount of \$128,000 was obtained in connection with the sale of land held by the Economic Development Authority (EDA) in December, 2007. The note and accrued interest were payable in full in June 2016. The note accrues interest at 7% per annum and is secured by a deed of trust. During 2016, the Board of the EDA agreed to extend the maturity date of the note to June 2017.

Less: Accumulated depreciation for:				
Buildings and improvements	\$ 4,028,221	\$ 522,194	\$ 49,550	\$ 4,500,865
Furniture, equipment and vehicles	3,411,051	880,124	284,634	4,006,541
School buildings, improvements and equipment *	4,997,376	407,000	432,250	4,972,126
Total accumulated depreciation	<u>\$ 12,436,648</u>	<u>\$ 1,809,318</u>	<u>\$ 766,434</u>	<u>\$ 13,479,532</u>
Other capital assets, net	<u>\$ 27,870,589</u>	<u>\$ (1,318,380)</u>	<u>\$ 1,040,462</u>	<u>\$ 25,511,747</u>
Net capital assets	<u><u>\$ 30,407,581</u></u>	<u><u>\$ 1,904,862</u></u>	<u><u>\$ 1,040,462</u></u>	<u><u>\$ 31,271,981</u></u>
Depreciation expense was allocated as follows:				
General government administration		\$ 302,233		
Public safety		715,754		
Public works		259,710		
Health and welfare		24,162		
Education		407,000		
Parks, recreation and cultural		100,459		
Total depreciation expense		<u><u>\$ 1,809,318</u></u>		

* School Board capital assets are jointly owned by the County (primary government) and the Component Unit School Board. The County share of the School Board capital assets is in proportion to the debt owed on such assets by the County. The County reports depreciation on these assets as an element of its share of the costs of the public school system.

NOTE 7—LONG-TERM OBLIGATIONS:

General Fund revenues are used to pay all long-term general obligation debt, and General Fund capital leases and compensated absences. School Fund revenues and appropriations from the General Fund are used to pay its compensated absences. Thus, all of the long-term debt obligations are reported as liabilities of the primary government.

The following is a summary of long-term obligations transactions of the County for the year ended June 30, 2016:

USDA Revenue Bonds

Under the terms of the USDA Water and Sewer Revenue Bonds, the County is required to establish a reserve equal to 10% of the monthly installments of principal and interest until an amount equal to twelve monthly installments has been established. The requirement to establish the reserve commences with the first scheduled monthly installment of principal and interest. The funds are not required to be held in a separate bank account.

The reserve was established in December 2008, and has a balance of \$54,137 at June 30, 2016. The reserve has been reflected as restricted cash in the accompanying financial statements.

The County paid \$47,441 in interest on the USDA Water and Sewer Bonds in fiscal 2016, of which \$0 has been capitalized in the accompanying financial statements.

Federal Arbitrage Regulations:

The County is in compliance with federal arbitrage regulations. Any arbitrage amounts that may be required to be paid are not material to the financial statements.

NOTE 8—COMPENSATED ABSENCES:

In accordance with GASB Statement 16, *Accounting for Compensated Absences*, the County and its components units have accrued the liability arising from all outstanding compensated absences. The liability for future vacation and sick leave benefits is accrued when such benefits meet the following conditions.

The County's policy is to pay accrued vacation and compensatory time upon termination. Vacation time earned is limited to a maximum of 24 to 54 days, depending on years of service. Compensatory leave credits lapse after twelve months following the performance of work. School Board employees are paid up to 36 days of accrued vacation upon termination and at a rate of \$10 per day for sick leave only at retirement. Social Services employees are paid up to a maximum of 24 to 54 days of accrued vacation upon termination. Social Services employees are also paid unused sick leave upon termination; such pay is limited to the lesser of 25% of the unused balance or \$2,500.

NOTE 9—PENSION PLAN:

Plan Description

All full-time, salaried permanent employees of the County and (nonprofessional) employees of public school divisions are automatically covered by VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees - Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

RETIREMENT PLAN PROVISIONS		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.</p>	<p>About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p>	<p>About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window. (see “Eligible Members”)</p> <ul style="list-style-type: none"> • The defined benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula. • The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.

Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.</p>	<p>Hybrid Opt-In Election (Cont.) Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.</p>	<p>*Non-Eligible Members (Cont.) Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.</p>
<p>Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions and school divisions elected to phase in the required 5% member contribution but all employees will be paying the full 5% by July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.</p>	<p>Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions and school divisions elected to phase in the required 5% member contribution but all employees will be paying the full 5% by July 1, 2016.</p>	<p>Retirement Contributions A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.</p>

After that one-year period, the rate for most categories of service will change to actuarial cost. <p><u>Defined Contribution Component:</u> Not applicable.</p>

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 9—PENSION PLAN: (CONTINUED)

Plan Description (Continued)

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at <http://www.varetire.org/Pdf/Publications/2015-annual-report.pdf>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Employees Covered by Benefit Terms

As of the June 30, 2014 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Primary Government	Component Unit School Board Nonprofessional
	<u> </u>	<u> </u>
Inactive members or their beneficiaries currently receiving benefits	60	41
Inactive members:		
Vested inactive members	13	6
Non-vested inactive members	15	12
Inactive members active elsewhere in VRS	28	12
Total inactive members	<u>56</u>	<u>30</u>
Active members	<u>89</u>	<u>84</u>
Total covered employees	<u><u>205</u></u>	<u><u>155</u></u>

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The County’s contractually required contribution rate for the year ended June 30, 2016 was 12.31% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the County were \$476,260 and \$464,083 for the years ended June 30, 2016 and June 30, 2015, respectively.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 9—PENSION PLAN: (CONTINUED)

Contributions (Continued)

The Component Unit School Board's contractually required contribution rate for nonprofessional employees for the year ended June 30, 2016 was 8.41% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit School Board's nonprofessional employees were \$131,798 and \$129,098 for the years ended June 30, 2016 and June 30, 2015, respectively.

Net Pension Liability

The County's and Component Unit School Board's (nonprofessional) net pension liabilities were measured as of June 30, 2015. The total pension liabilities used to calculate the net pension liabilities were determined by an actuarial valuation performed as of June 30, 2014, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Actuarial Assumptions - General Employees

The total pension liability for General Employees in the County/City/Town's and Component Unit School Board's (nonprofessional) Retirement Plan was based on an actuarial valuation as of June 30, 2014, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Inflation	2.5%
Salary increases, including inflation	3.5% - 5.35%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates: 14% of deaths are assumed to be service related

Largest 10 - Non-LEOS:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females set back 2 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Actuarial Assumptions - Public Safety Employees

The total pension liability for Public Safety employees in the County's Retirement Plan was based on an actuarial valuation as of June 30, 2014, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Inflation	2.5%
Salary increases, including inflation	3.5% - 4.75%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 9—PENSION PLAN: (CONTINUED)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
U.S. Equity	19.50%	6.46%	1.26%
Developed Non U.S. Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate Sensitive Credit	4.50%	3.51%	0.16%
Non Rate Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
Total	100.00%		5.83%
		Inflation	2.50%
		*Expected arithmetic nominal return	8.33%

* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 9—PENSION PLAN: (CONTINUED)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the County and Component Unit School Board (nonprofessional) Retirement Plans will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 9—PENSION PLAN: (CONTINUED)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2016, the County and Component Unit School Board (nonprofessional) recognized pension expense of \$228,911 and \$49,484, respectively. At June 30, 2015, the County and Component Unit School Board (nonprofessional) reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government		Component Unit School Board (nonprofessional)	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 14,666	\$ -	\$ 31,877	\$ -
Change in assumptions	-	-	-	-
Net difference between projected and actual earnings on pension plan investments	-	417,447	-	164,567
Employer contributions subsequent to the measurement date	476,260	-	131,798	-
Total	\$ 490,926	\$ 417,447	\$ 163,675	\$ 164,567

\$476,260 and \$131,798 reported as deferred outflows of resources related to pensions resulting from the County's and Component Unit School Board's (nonprofessional) contributions, respectively, subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense information reporting periods as follows:

Year ended June 30	Primary Government	Component Unit School Board (nonprofessional)
2017	\$ (158,694)	\$ (51,047)
2018	(158,694)	(51,047)
2019	(160,821)	(60,037)
2020	75,428	29,441
Thereafter	-	-

NOTE 9—PENSION PLAN: (CONTINUED)

Component Unit School Board (professional)

Plan Description

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan upon employment. This is a cost-sharing multiple employer plan administered by the Virginia Retirement System (the system). Additional information regarding the plan description can be found in the first section of this note.

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

Each School Division's contractually required contribution rate for the year ended June 30, 2016 was 14.06% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013 adjusted for the transfer in June 2015 of \$192,884,000 as an accumulated payback of the deferred contribution in the 2010-2012 biennium. The actuarial rate for the Teacher Retirement Plan was 18.20% however it was reduced to 17.64% as a result of the transfer. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Based on the provisions of §51.1-145 of the Code of Virginia, as amended the contributions were funded at 79.69% of the actuarial rate for the year ended June 30, 2016. Contributions to the pension plan from the School Board were \$1,689,453 and \$1,606,740 for the years ended June 30, 2016 and June 30, 2015, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the school division reported a liability of \$18,769,000 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2015 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2015 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2015, the school division's proportion was .14912% as compared to .153472% at June 30, 2014.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements

NOTE 9—PENSION PLAN: (CONTINUED)

Component Unit School Board (professional) (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

For the year ended June 30, 2016, the school division recognized pension expense of \$1,389,000. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2016, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ 258,000
Change in assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	-	1,150,000
Changes in proportion and differences between employer contributions and proportionate share of contributions	449,000	494,000
Employer contributions subsequent to the measurement date	<u>1,689,453</u>	<u>-</u>
Total	<u>\$ 2,138,453</u>	<u>\$ 1,902,000</u>

\$1,689,453 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

<u>Year ended June 30</u>	
2017	\$ (494,000)
2018	(494,000)
2019	(494,000)
2020	111,000
Thereafter	(82,000)

NOTE 9—PENSION PLAN: (CONTINUED)

Component Unit School Board (professional) (Continued)

Actuarial Assumptions

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2014, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Inflation	2.5%
Salary increases, including inflation	3.5% - 5.95%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 3 years and females set back 5 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females set back 3 years

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 1 year and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates of withdrawals for 3 through 9 years of service
- Decrease in rates of disability
- Reduce rates of salary increase by 0.25% per year

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements

NOTE 9—PENSION PLAN: (CONTINUED)

Component Unit School Board (professional) (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class (Strategy)</u>	<u>Target Allocation</u>	<u>Arithmetic Long-Term Expected Rate of Return</u>	<u>Weighted Average Long-Term Expected Rate of Return</u>
U.S. Equity	19.50%	6.46%	1.26%
Developed Non U.S. Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate Sensitive Credit	4.50%	3.51%	0.16%
Non Rate Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
Total	<u>100.00%</u>		<u>5.83%</u>
		Inflation	<u>2.50%</u>
		*Expected arithmetic nominal return	<u>8.33%</u>

* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 9—PENSION PLAN: (CONTINUED)

Component Unit School Board (professional) (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the school division for the VRS Teacher Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, school divisions are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the net pension liability using the discount rate of 7.00%, as well as what the school division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	Rate		
	(6.00%)	(7.00%)	(8.00%)
School division's proportionate share of the VRS Teacher Employee Retirement Plan Net Pension Liability (Asset)	\$ 27,466,000	\$ 18,769,000	\$ 11,609,000

Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2015 Comprehensive Annual Financial Report (CAFR). A copy of the 2015 VRS CAFR may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2015-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

NOTE 10—OTHER POSTEMPLOYMENT BENEFITS—HEALTH INSURANCE:

A. Plan Descriptions

County

The County offers health insurance benefits to qualified retirees under a single-employer plan (the County Plan). Health benefits are for medical coverage only.

Eligible retirees under the age of 65 may choose one of the following health insurance options: (a) Key Advantage Expanded Benefits - PPO, or (b) Key Advantage 200 - PPO. An eligible retiree under the age of 65 may elect coverage for himself, for one dependent and himself, or for a family.

Eligible retirees 65 years or older may only participate in the Key Advantage 65 - PPO. An eligible retiree 65 years or older may elect coverage for himself, or for one dependent and himself.

The authority to establish and amend the benefit provisions of the County Plan rests with the County Board of Supervisors. There is no publicly available financial report for the County Plan.

School Board

The School Board offers health insurance benefits to qualified retirees under a single-employer plan (the School Board Plan). Health benefits include medical, dental and vision coverage.

Eligible retirees under the age of 65 may choose one of the following health insurance options: (a) Local Choice Expanded Benefits --PPO, (b) Local Choice 2000 - PPO, or (c) Local Choice High Deductible - PPO.

An eligible retiree under the age of 65 may elect coverage for himself, for one dependent and himself, or for a family.

Eligible retirees 65 years or older may only participate in the Advantage 65 - PPO. An eligible retiree 65 years or older may elect coverage for himself, or for one dependent and himself.

The authority to establish and amend the benefit provisions of the School Plan rests with the School Board. There is no publicly available financial report for the School Plan.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 10—OTHER POSTEMPLOYMENT BENEFITS—HEALTH INSURANCE: (CONTINUED)

B. Funding Policies

County

The contribution requirements of plan members and the County are established and may be amended by the County Board of Supervisors. For eligible retirees, 100% of the nominal premium is the responsibility of the retiree. As of January 1, 2015, monthly required premiums were as follows:

	Monthly premium owed by retiree		
	Retiree	Retiree and one dependent	Family
Key Advantage 250 -- Comprehensive	\$ 593	\$ 1,097	\$ 1,601
Key Advantage 250 -- Preventative	\$ 580	\$ 1,073	\$ 1,566
Key Advantage Expanded Benefits -- Comprehensive	\$ 650	\$ 1,203	\$ 1,755
Key Advantage Expanded Benefits -- Preventative	\$ 637	\$ 1,178	\$ 1,720
Key Advantage 65	\$ 160	\$ 320	N/A

The County has not adopted a funding policy for the implicitly subsidized costs of the County Plan. The County Plan has no assets and is financed on a pay-as-you-go basis.

School Board

The contribution requirements of plan members and the School Board are established and may be amended by the School Board. For eligible retirees, 100% of the nominal premium is the responsibility of the retiree. For the year beginning January 1, 2015, monthly required premiums were as follows:

	Monthly premium owed by retiree		
	Retiree	Retiree and one dependent	Family
Key Advantage 500 -- PPO	\$ 539	\$ 997	\$ 1,455
Key Advantage 250 -- PPO	\$ 588	\$ 1,088	\$ 1,588
High Deductible Health Plan -- PPO	\$ 451	\$ 834	\$ 1,218
Advantage 65 -- PPO	\$ 190	\$ 380	N/A

The School Board has not adopted a funding policy for the implicitly subsidized costs of the School Plan. The School Plan has no assets and is financed on a pay-as-you-go basis.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 10—OTHER POSTEMPLOYMENT BENEFITS—HEALTH INSURANCE: (CONTINUED)

C. Annual OPEB Cost and Net OPEB Obligation

The County and the School Board's annual postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution* (ARC) of the employer. The County and the School Board have elected to calculate the ARC as the normal cost plus the amortization of the unfunded portion of the actuarial accrued liability in compliance with GASB parameters. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The estimated contributions are based on projected medical premium payments and credit for the implicit rate subsidy made during the year for the retired employees by the County and the School Board. The following table presents the components of the County's and the School Board's annual OPEB cost for the year, the estimated contributions to the Plans, and changes in the County's and the School Board's net obligations for the Plans:

	<u>County</u>	<u>School Board</u>
Annual required contribution	\$ 57,800	\$ 91,000
Interest on OPEB obligation	871	10,000
Adjustment to ARC	<u>(1,621)</u>	<u>(15,500)</u>
Annual OPEB cost	\$ 57,050	\$ 85,500
Estimated contributions made	<u>(58,500)</u>	<u>(48,100)</u>
Increase in net OPEB obligation	\$ (1,450)	\$ 37,400
Net OPEB obligation at beginning of year	<u>24,890</u>	<u>285,601</u>
Net OPEB obligation at end of year	<u>\$ 23,440</u>	<u>\$ 323,001</u>

The County's and the School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the fiscal year 2016 and the two preceding years were as follows:

<u>Fiscal Year Ending:</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
County:			
June 30, 2014	\$ 41,549	104.94%	\$ 23,948
June 30, 2015	58,442	98.39%	24,890
June 30, 2016	57,050	102.54%	23,440
School Board:			
Non-professional			
June 30, 2014	\$ 133,000	57.22%	\$ 240,201
June 30, 2015	83,100	45.37%	285,601
June 30, 2016	85,500	56.26%	323,001

NOTE 10—OTHER POSTEMPLOYMENT BENEFITS—HEALTH INSURANCE: (CONTINUED)

D. Funded Status and Funding Progress

At January 1, 2015, the most recent actuarial valuation date, the County Plan was unfunded. The actuarial accrued liability for benefits was \$603,500, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$603,500. The covered payroll (annual payroll of active employees covered by the plan) was \$3,747,800, and the ratio of the UAAL to the covered payroll was 16.10%.

At January 1, 2015, the most recent actuarial valuation date, the School Board Plan was unfunded. The actuarial accrued liability for benefits was \$785,400, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$785,400. The covered payroll (annual payroll of active employees covered by the plan) was \$12,802,200, and the ratio of the UAAL to the covered payroll was 6.13%.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and healthcare trends. Amounts determined regarding the funded status of the Plans and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, if any, consistent, with the long-term perspective of the calculations.

County

In the January 1, 2015, most recent actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 3.50% investment rate of return, and an annual healthcare cost trend rate based on the Getzen Trend Model (6.60% graded to 4.50% graded over 65 years). The payroll growth rate was assumed to be 3.00%.

The UAAL is being amortized as a level percentage of payroll on a closed basis. The remaining amortization period at January 1, 2015 was 16.5 years.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 10—OTHER POSTEMPLOYMENT BENEFITS—HEALTH INSURANCE: (CONTINUED)

E. Actuarial Methods and Assumptions: (Continued)

School Board

In the January 1, 2015, most recent actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 3.50% investment rate of return, and an annual healthcare cost trend rate based on the Getzen Trend Model (6.60% graded to 4.50% graded over 63 years). The payroll growth rate was assumed to be 3.00%.

The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining amortization period at January 1, 2015 was 30 years.

NOTE 11—VRS HEALTH INSURANCE CREDIT - OTHER POSTEMPLOYMENT BENEFITS:

A. Plan Description

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the Code of Virginia. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 9.

B. Funding Policy

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 1.06% of annual covered payroll. The School Board's contributions to VRS for the years ended June 30, 2016, 2015, and 2014 were \$126,828, \$117,458, and \$124,464, respectively and equaled the required contributions for each year.

NOTE 12—EXCESS OF EXPENDITURES OVER APPROPRIATIONS:

There was no excess of expenditures over appropriations in any of the County or School Board funds for the year ended June 30, 2016.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 13—DEFERRED/UNAVAILABLE/UNEARNED REVENUE:

	<u>Government-wide Statements</u>	<u>Balance Sheet</u>
	<u>Governmental Activities</u>	<u>Governmental Funds</u>
Primary Government:		
Deferred/Unavailable tax revenue:		
Uncollected property tax billings for which asset recognition criteria have not been met have been recorded as deferred revenue. The uncollected tax billings are not available for the funding of current expenditures.	\$ -	\$ 1,741,275
Second half installment due after June 30th	10,321,683	10,321,683
Prepaid property taxes have been recorded as deferred revenue. Prepaid taxes collected are available for the funding of current expenditures.	236,490	236,490
Total primary government	\$ <u>10,558,173</u>	\$ <u>12,299,448</u>

The Component Unit School Board had no unearned or unavailable revenue.

NOTE 14—CONNECTION FEES RECEIVABLE:

When customers connect to the broadband network, the customer is charged a connection fee. The County agreed to collect a portion of these fees over a period up to five years. At June 30, 2016, the County had connection fees receivable in the amount of \$152,905. The following is a schedule of the annual repayments.

Year Ending June 30,	Amount
2017	\$ 35,995
2018	35,360
2019	27,055
2020	45,442
2021	9,053
Total	\$ <u>152,905</u>

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 15—COMMITMENTS AND CONTINGENCIES:

Primary Government and Component Unit School Board:

Federal programs in which the County and School Board participate were audited in accordance with the provisions of U. S. Office of Management and the *Uniform Guidance*. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the federal government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

Operating Leases:

The County is leasing space at area locations in the County. None of the lease agreements have terms of more than one year. Total rent expenditures were \$75,060.

NOTE 16—LITIGATION:

At June 30, 2016, there were no matters of litigation involving the County or its component units that would have an adverse material effect on the financial position of the reporting entity should there be unfavorable rulings affecting the entities.

NOTE 17—SURETY BONDS:

	<u>Amount</u>
Virginia Department of Risk Management - Surety	
Judy Smythers, Clerk of the Circuit Court	\$ 450,000
Angela F. Johnson, Treasurer	400,000
Jean W. Payne, Commissioner of the Revenue	3,000
David Brooks, Sheriff	30,000
Above constitutional officers' employee - blanket bond	50,000
Virginia Association of Counties	
Group Self-Insurance Risk Pool - Crime coverage	
School Board employees	
Employee dishonesty - limit of liability	250,000
Fidelity and Deposit Company - Crime coverage	
Nelson County Department of Social Services employees	
Employee theft - per employee per occurrence	100,000

Allen M. Hale, Supervisor	1,000
Larry D. Saunders, Supervisor	1,000

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 18—RISK MANAGEMENT:

The primary government and its component units are exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; workers compensation claims and natural disasters.

The County contracts with the Virginia Association of Counties Municipal Liability Pool to provide for insurance coverages for these risks of loss. In the event of a loss deficit and depletion of all assets and available insurance of the Pool, the Pool may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The property coverage is for specific amounts based on values assigned to the insured properties. Liability coverage is for \$4,000,000.

The School Board contracts with private insurers for property and liability coverages. Property coverages are for specific property values. General liability coverage is \$10,000,000 and wrongful acts liability coverage is \$4,000,000.

Unemployment Insurance:

The County and School Board are responsible for any unemployment claims. The Virginia Employment Commission bills the County for all unemployment claims.

Employee Health Insurance:

The County and School Board have contracted with a private carrier for health insurance coverages.

Other:

The County and its component units have had no reductions in insurance coverages from the prior year. There have been no settlements in excess of insurance coverages for the past three years, other than the payment of deductibles which are immaterial.

NOTE 19—ACCRUED LANDFILL REMEDIATION COST:

The County closed its landfill operation on October 8, 1993, and contracted with private contractors to dispose of its solid waste. The landfill closure commenced in July, 1994, and, in accordance with federal and state laws and regulations, the County is required to monitor the landfill for 10 years or until released by the Department of Environmental Quality. The original postclosure care liability of \$387,865 was determined by engineers. The revised cost estimate has been estimated at \$1,045,981 as of June 30, 2016. This cost may be revised in the future depending on changes in regulations and applicable environmental laws.

The County demonstrated financial assurance requirements for closure, post closure care and corrective action costs through the submission of a Local Governmental Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 19—ACCRUED LANDFILL REMEDIATION COST: (CONTINUED)

As discussed in Note 1, the County entered into a Use Agreement with the Region 2000 Services Authority to use its solid waste disposal landfills. Under the terms of the agreement, the County is responsible for its pro rata share, as defined, of costs budgeted for closure, post-closure and corrective action, to the extent that tipping fees paid are not adequate to cover such costs.

NOTE 20—RELATED PARTY TRANSACTIONS:

The County had certain transactions with the Nelson County Service Authority during fiscal year 2016. In addition to purchasing water from the Authority at its normal rates, the County provides office space for the Authority's administrative operations free of charge, and appropriated \$156,000 to the Authority for fire protection services. The County also paid \$162,812 to the Authority for debt service requirements for the Colleen water line.

In October 2007, the County entered into an agreement with the Nelson County Service Authority (NCSA) to operate and maintain the Piney River III Water and Sewer system (Piney River III). NCSA also bills Piney River III customers, and remits collections to the County on a monthly basis. The County pays NCSA \$3.62 per 1,000 gallons of water delivered to Piney River III customers and \$2.94 per 1,000 gallons of sewerage delivered to NCSA by Piney River III customers.

NOTE 21—DEFERRED COMPENSATION PLAN:

The County offers an approved deferred compensation plan pursuant to Section 457 of the Internal Revenue Code. Permanent, part-time and full-time County employees are eligible to participate and may defer 25% of their gross income up to a maximum of \$18,000 in 2016. Eligible employees age 50 and over may defer up to \$24,000 in 2016. The compensation deferred is not available to employees until termination, retirement, death or an unforeseeable emergency.

The assets of the plan vest solely with the employee and are not available to the County general creditors.

NOTE 22—ADOPTION OF ACCOUNTING PRINCIPLES:

Governmental Accounting Standards Board Statement No. 72, Fair Value Measurement and Application

The County implemented the provisions of the above Statement during the fiscal year ended June 30, 2016. The Statement generally requires investments to be measured at fair value. The Statement requires the County to use valuation techniques which are appropriate under the circumstances and are either a market approach, a cost approach or an income approach. The Statement establishes a hierarchy of inputs used to measure fair value. There was no material impact on the County's financial statement as a result of the implementation of Statement No. 72. All required disclosures are located in Note 23.

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 22—ADOPTION OF ACCOUNTING PRINCIPLES: (CONTINUED)

Governmental Accounting Standards Board Statement No. 79, Certain External Investment Pools and Pool Participants

The County implemented the provisions of the above Statement during the fiscal year ended June 30, 2016. This Statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. An external investment pool qualifies for that reporting if it meets all of the applicable criteria established in this Statement. There was no material impact on the County's financial statement as a result of the implementation of Statement No. 79. All required disclosures are located in Note 2.

Governmental Accounting Standards Board Statement No. 82, Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73

The County early implemented provisions of the above Statement during the fiscal year ended June 30, 2016. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. No restatement was required as a result of this implementation.

NOTE 23—FAIR VALUE MEASUREMENTS:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The County maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

- Level 1. Quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at a measurement date
- Level 2. Directly or indirectly observable inputs for the asset or liability other than quoted prices

COUNTY OF NELSON, VIRGINIA

Notes to Financial Statements
As of June 30, 2016 (Continued)

NOTE 23—FAIR VALUE MEASUREMENTS: (CONTINUED)

- Level 3. Unobservable inputs that are supported by little or no market activity for the asset or Liability

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

The County has the following recurring fair value measurements as of June 30, 2016:

Investment	6/30/2016	Fair Value Measurements Using		
		Quoted Prices in Active Markets or Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money Market Mutual Fund	\$ 8,266	\$ 8,266	\$ -	\$ -
Certificates of Deposit	1,726,474	1,726,474	-	-
	<u>\$ 1,734,740</u>	<u>\$ 1,734,740</u>	<u>\$ -</u>	<u>\$ -</u>

NOTE 24—UPCOMING PRONOUNCEMENTS:

Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, improves the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement replaces Statements No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple Employer Plans. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, as amended, Statement 43, and Statement No. 50, Pension Disclosures. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016.

Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pension, improves accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans. This Statement is effective for fiscal years beginning after June 15, 2017.

NOTE 24—UPCOMING PRONOUNCEMENTS: (CONTINUED)

Statement No. 77, Tax Abatement Disclosures, will increase the disclosure of tax abatement agreements to disclose information about the agreements. The requirements of this Statement improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2015.

Statement No. 78, Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans, addresses a practice issue regarding the scope and applicability of Statement No. 68, Accounting and Financial Reporting for Pensions. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. The requirements of this Statement are effective for reporting periods beginning after December 15, 2015.

Statement No. 80, Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14, improves financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement amends the blending requirements established in paragraph 53 of Statement No. 14, The Financial Reporting Entity, as amended. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016.

Statement No. 81, Irrevocable Split-Interest Agreements, improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

Current year contributions are from County of Nelson and Nelson County School Board's records and prior year contributions are from the VRS actuarial valuation performed each year.

The School Board Professional Schedule is intended to show information for 10 years. Since 2015 was the first year for this presentation, no other data is available. However, additional years will be included as they become available.

Notes to Required Supplementary Information
For the Year Ended June 30, 2016

In 2015, Covered Employee Payroll (as defined by GASB 68) included the total payroll for employees covered under the pension plan whether that payroll is subject to pension coverage or not. This definition was modified in GASB Statement No. 82 and now is the payroll on which contributions to a pension plan are based. The ratios presented use the same measure.

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement Plan members for the first time. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. Because this was a new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2015 are not material.

Changes of assumptions - The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Largest 10 - LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

Component Unit School Board - Professional Employees

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates of withdrawals for 3 through 9 years of service
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Discretely Presented Component Unit School Board
 Reconciliation of the Governmental Fund Balance Sheet to the Statement of Net Position
 At June 30, 2016

Total fund balance for governmental fund (Exhibit 20)	\$	642,335
Total net position reported for governmental activities in the statement of net position is different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the fund. Those assets consist of:		
Land and improvements	\$	851,210
Buildings and improvements, net of depreciation		25,690,530
Equipment, net of depreciation		1,416,069
School Board capital assets in primary government, net of depreciation		<u>(11,307,874)</u>
		16,649,935
Items related to measurement of net pension liability not available to pay for current-period expenditures		(2,066,567)
Pension contributions subsequent to the measurement date will be a reduction to/increase in the net pension liability/asset in the next fiscal year and, therefore, are not reported in the funds.		1,821,251
Long-term liabilities applicable to the School Board's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities.		
Compensated absences	\$	(356,590)
Energy improvement lease		(1,851,400)
Net pension liability		(19,279,073)
Other deferred outflows related to measurement of net pension liability		480,877
Net OPEB obligation		<u>(323,001)</u>
		<u>(21,329,187)</u>
Total net position of governmental activities (Exhibit 1)	\$	<u><u>(4,282,233)</u></u>

Discretely Presented Component Unit School Board
Statement of Revenues, Expenditures, and Changes in Fund Balances
Governmental Fund
For the Year Ended June 30, 2016

	<u>School Operating Fund</u>
Revenues	
Revenue from the use of money and property	\$ 34
Charges for services	444,004
Miscellaneous	290,317
Recovered costs	155,748
Intergovernmental:	
Appropriations from primary government	14,567,934
Commonwealth	8,647,132
Federal	<u>1,774,688</u>
Total revenues	<u>\$ 25,879,857</u>
Expenditures	
Current:	
Education	
Instruction	\$ 16,539,597
Administration, attendance and health	1,100,811
Transportation	2,399,275

Fund balance, beginning of year	<u>491,420</u>
Fund balance, end of year	<u><u>\$ 642,335</u></u>

Discretely Presented Component Unit School Board
 Reconciliation of the Statement of Revenues, Expenditures,
 and Changes in Fund Balance of Governmental Fund to the Statement of Activities
 For the Year Ended June 30, 2016

Net change in fund balance - total governmental fund (Exhibit 22) \$ 150,915

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital asset additions	\$ 379,906	
Depreciation expense	(1,264,812)	(884,906)

Transfer of joint tenancy assets from Primary Government to the Component Unit School Board 1,032,750

(Increase) decrease in deferred inflows related to the measurement of the net pension liability/asset 1,061,871

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. This adjustment combines the net changes of the following:

Compensated absences	\$ (15,262)	
Energy improvement lease	110,126	
Decrease (increase) in net pension liability	(386,134)	
Decrease (increase) in deferred outflows related to pension payments subsequent to the measurement date and other deferred outflows related to pensions	(10,710)	
Net OPEB obligation	(37,400)	(339,380)

Change in net position of governmental activities (Exhibit 2) \$ 1,021,250

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Members of the Board of Supervisors
County of Nelson, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of County of Nelson, Virginia, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the County of Nelson, Virginia's basic financial statements, and have issued our report thereon dated December 30, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered County of Nelson, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County of Nelson, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of County of Nelson, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether County of Nelson, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

To the Honorable Members of the Board of Supervisors
County of Nelson, Virginia

Report on Compliance for Each Major Federal Program

We have audited County of Nelson, Virginia's compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of County of Nelson, Virginia's major federal programs for the year ended June 30, 2016. County of Nelson, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County of Nelson, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Nelson, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of County of Nelson, Virginia's compliance.

Opinion on Each Major Federal Program

In our opinion, County of Nelson, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control over Compliance

Management of County of Nelson, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered County of Nelson, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Nelson, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See accompanying notes to the schedule of expenditures of federal awards.

COUNTY OF NELSON, VIRGINIA

Notes to Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2016

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Nelson, Virginia under programs of the federal government for the year ended June 30, 2016. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance. Because the Schedule presents only a selected portion of the operations of the County of Nelson, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County of Nelson, Virginia.

Note 2 - Summary of Significant Accounting Policies

(1) Expenditures on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Donation

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

Note 4 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:

General Fund	\$	711,924
Housing Improvement Fund		180,015
Total primary government	\$	<u>891,939</u>

Component Unit School Board:

School Operating Fund	\$	<u>1,774,688</u>
Total component unit school board	\$	<u>1,774,688</u>

Less Payments in Lieu of Taxes not reported on Schedule of Expenditures of Federal Awards	\$	<u>(65,416)</u>
---	----	-----------------

Total federal expenditures per basic financial statements	\$	<u>2,601,211</u>
---	----	------------------

Total federal expenditures per the Schedule of Expenditures of Federal Awards	\$	<u><u>2,601,211</u></u>
---	----	-------------------------
